Delivering Sustainable Education Services

Improving outcomes for all children and young people, including the most vulnerable and disadvantaged.

“A strong commissioning process is essential to securing best outcomes for all. We have a strong partnership with Babcock Education; we work together closely in a framework of continuous improvement, professional challenge and dialogue.”

As a result of our joint working, we have seen significant improvements in important areas including Ofsted outcomes, key stage results, safeguarding, attendance and in the performance of vulnerable groups.”

Sue Clarke, Former Head of Education and Learning, Devon County Council

In a time of funding challenges and education uncertainty...

Our strong partnerships with Surrey, Devon and Worcestershire County Councils, have transformed education services by:

- Improving outcomes
- Developing effective inclusion strategies
- Narrowing the gap for disadvantaged and vulnerable pupils
- Providing cost-effective solutions to budget challenges

Babcock is experienced at delivering complex education services and has helped the three local authorities we work with, through large scale transitions of staff, facilities and support services.

All three LAs that Babcock Education partners with are in the top third of LAs nationally at KS4 – Surrey ranks 15th.

A Core and Traded Model

Surrey, Devon and Worcestershire County Councils work with Babcock Education to commission the outcomes they need. Our partnership approach to working collaboratively with schools and academies provides quality-assured support for teaching and learning, leadership and the individual learner, which has been a key factor in improving outcomes. Strengthening local, regional and national partnerships across education, health and social care forms part of our approach. This enables us to establish a truly 'holistic' provision for our partners and the children they support, whilst developing effective connections with the community it serves.

Babcock consultants are constantly developing traded opportunities and new services to meet the needs of schools, academies and trusts and ensuring a high-quality offer is available to support all of our education community.

Services include School Improvement, Inclusion, SEND support, Safeguarding, Educational Psychology, Governance and all back office and support functions including, HR, Finance, ICT and Facilities Management.

“Babcock are professional, energetic and enthusiastic partners in delivering autism training to Early Years settings and Post-16 staff in the South West region.”

Sarah-Jane Critchley, Autism Education Trust Programme Manager

How Babcock Education can support you

- Fulfil your local authority duties for supporting vulnerable children and young people
- Strengthen partnership working by building relationships with local leaders and teaching schools
- Develop sustainable, affordable and integrated solutions to budget challenges that strengthen your local offer
- Professional development of your headteachers and senior leaders

Why working with us makes sense

- Experience of working with a range of local authorities, all education phases and school types, across School Improvement, SEND and support services
- Cost-effective solutions to budget reductions
- Strong track record of improving outcomes for schools and individuals
- An unrivalled broad range and depth of trusted educational expertise, creating locally delivered improvements in a national context

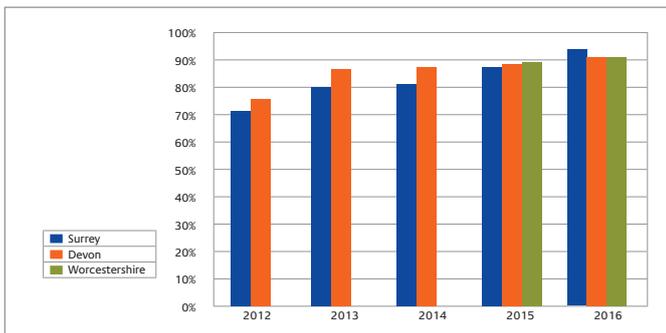

How do your Education Services compare?

Financial returns and re-investing profits back into the community

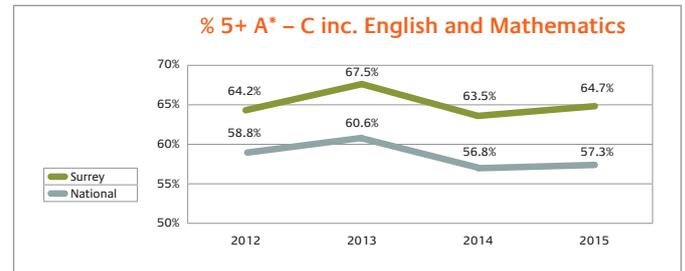

Financial benefits accrue for the local authority through our joint venture partnerships, to date Babcock has:

- Paid £5.7m in dividends to our joint venture partners
- Made 20-30% cost savings against budget in each contract
- Committed £900k to education trust investments in the local communities which fund ambitious and innovative educational projects that benefit children and young people. Projects include STEM-related activities and a music outreach programme

Over 90% of ALL Surrey, Devon and Worcestershire schools now 'Good' or 'Outstanding'

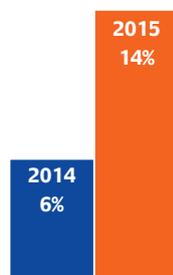

Surrey's performance at KS4 yoy performs well above the national average

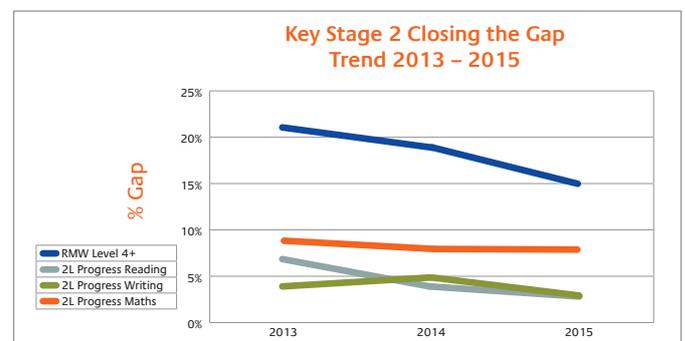

Outcomes for 'Looked After Children' have 'Doubled' % 5+ A*-C (Devon Local Authority)

A fully integrated approach to LAC was established between education and social care, which focused on supporting and challenging schools, ensuring placement stability to help each young person to meet their end of key stage target.

Devon schools are overcoming barriers to attainment at KS2 for disadvantaged pupils
